**\*Routine:** Content that is ready for release and has been previously approved through Department channels or involves minor wording updates. Some examples of routine are; Approved Job Postings, Approved publications, reports and brochures, Approved updates to regularly published statistics, typo or spelling corrections. **Most content will probably be in this category unless it involves completely new information not published before and not officially approved.**

**\*\*New:** Content that has never been published or approved through Department channels. **This includes requests for links to websites ending with .org, .com, or .net.** Please use the <http://healthnet/services/webpublishing/newauth.doc>
